INTRODUCTION

GTT EnvisionDX serves as the global central hub for channel partners, customers and employees to seamlessly connect, visualize, engage, and manage a wide array of GTT services.

GTT EnvisionDX provides immediate pricing, quoting and ordering and easy-to-access digital terms and conditions for existing customers and net new customer opportunities:

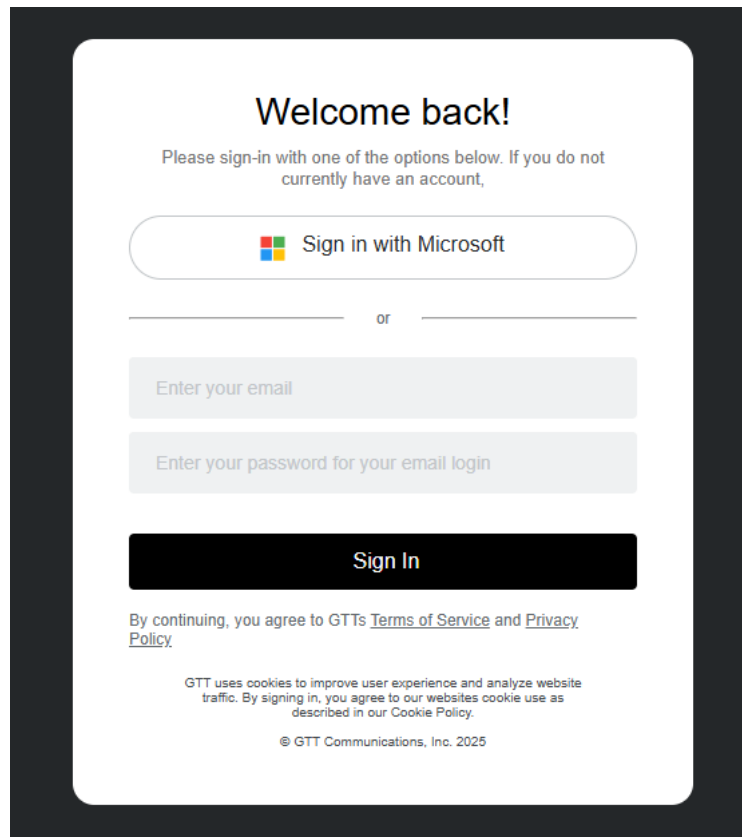

- Managed Connectivity - DIA, broadband internet, broadband wireless and customer-provided access.
- Secure Networking - HPE Aruba Managed SD-WAN, VMWare VeloCloud Managed SD-WAN, and Palo Alto Networks managed firewall for existing customers.
- Select Professional Services - Project Management (PM) and Technical Design Authority (TDA), and Professional Installation.
- Equipment/Shipping - Applicable equipment and shipping and handling charges.

Please note: Quoting and ordering is available for new orders only — no renewals, changes, or upgrades.

ACCESSING THE PORTAL

The GTT EnvisionDX quoting tool can be accessed through a web browser by the link bellow:

<https://dx.gtt.net/>

The screenshot shows a login interface for the GTT EnvisionDX portal. At the top, it says "Welcome back!". Below this, a message asks the user to sign in with one of the options below, or to create an account if they don't have one. There is a "Sign in with Microsoft" button. Below that, there are input fields for "Enter your email" and "Enter your password for your email login". A "Sign In" button is positioned below the password field. At the bottom, there is a disclaimer about cookies and a copyright notice for GTT Communications, Inc. 2025.

Welcome back!

OPPORTUNITIES

The opportunities menu item on the left-hand side allows you to view all of your current opportunities and associated quotes.

Each opportunity tile shows the name of the client, the associated trusted advisor for that opportunity, and your GTT Channel Director who can assist you in the quoting process. You can also view the number of single and multi-site quotes associated with that opportunity.

You can view the opportunity or add a new quote.

You can also create a net new opportunity to start a quote for an existing customer or a new net prospect.

ADD AN OPPORTUNITY

To create a new opportunity, select the button **+Opportunity**.

ADD A NEW CLIENT

You can add a new prospect client in an opportunity by selecting the “Add New Client” option from the client dropdown menu.

The image shows two screenshots from the GTT ENVISIONDX BETA application. The top screenshot is a modal titled "Add An Opportunity" with a close button (X). It contains a "Name" field with the text "test" and a "Client" dropdown menu. The dropdown menu is open, showing "EnvisionDX Demo" and a red-bordered button labeled "Add New Client". The bottom screenshot shows the main "Opportunities" dashboard. On the left is a sidebar with "Opportunities" and "Quotes" sections. The main area displays two opportunity cards: "Night Corp DIA 100" and "Partner Training Oppty". On the right is a modal titled "Add A Client" with a close button (X). This modal contains ten numbered fields: 1. Legal Entity Name, 2. Website, 3. Headquarters Street Address, 4. Headquarters State/Province (dropdown), 5. Headquarters Country (dropdown), 6. Number of Employees, 7. Annual Revenue, 8. Contact Name (first and last name), 9. Contact Title, and 10. Contact Email Address. At the bottom of the modal are "Cancel" and "Add Client" buttons.

1. Legal Entity Name: Name of the Client. Please note that you cannot add a client that already exists.
2. Client website URL address should be written in this field.
3. Headquarters street address should be written in this field.
4. Headquarters state or province should be selected from the list.
5. Headquarters country should be selected from the list.
6. Number of employees should be written in this field.
7. Annual revenue value should be written in this field.
8. Contact name should be written in this field.
9. Contact title should be written in this field.
10. Contact email address should be written in this field.

Once complete, select add client.

Add A Client

Added Nikola Dimitrov to your client list.

* Legal Entity Name

ENVISIONDX OPERATOR (EVO)

EVO is EnvisionDX's Artificial Intelligence chat bot build to answer questions related to GTT's products.

Select the EVO icon to bring up a chat window.

SINGLE SITE QUOTE

Quote a New Site

To quote a new site, please navigate to the Quotes (1) menu item and then select the (2) +Quote button.

The screenshot shows the GTT ENVISIONDX interface. On the left sidebar, the 'Quotes' menu item is highlighted with a red circle and the number 1. In the top right corner, a '+ Quote' button is highlighted with a red circle and the number 2. The main dashboard area displays a grid of quote cards. Each card includes a title, address, quote type, and financial details like MRR and Terms. The cards are: 'Test Site', 'LL Test Jan 5', 'Madison Ave', and 'Madison Ave'. Each card has a 'View Quote' button at the bottom.

Quote a New Site(s)

The screenshot shows the 'Quote a New Solution' form. The form has sections for Client, Trusted advisor/Sub-Agent, Opportunity, and Quote a New Solution. The Client section has a dropdown menu with 'EnvisionDX Demo' selected, highlighted with a red circle and the number 1. The Trusted advisor/Sub-Agent section has a dropdown menu with a blurred name, highlighted with a red circle and the number 2. The Opportunity section has a dropdown menu with 'September Demo (205949)' selected, highlighted with a red circle and the number 3. The Quote a New Solution section has a 'Select' button, a dropdown menu with 'Single' selected, highlighted with a red circle and the number 4, and a 'Physical' dropdown menu. At the bottom, there is a 'Next' button highlighted with a red circle and the number 5.

1. **TSD Account:** Confirm the correct account is selected. This should automatically populate.
2. **Trusted advisor/Sub-Agent:** Select the agent associated with the quote for record purposes.
3. **Quote a New Solution:** Single Site and Physical Location are currently the only options available. This will be expanded in future.
4. **Next:** Select next to proceed further.

DIA

The screenshot shows a web interface for configuring Dedicated Internet Access (DIA). The main header displays 'Connectivity: \$648.15' and 'DIA: 100 Mbps, FastE/Copper, /30'. The interface is divided into two main sections: configuration options on the left and a pricing summary on the right.

Configuration Options (Left Panel):

- 1. DIA:** A dropdown menu showing '\$648.15/m Dedicated Internet Access' with a green 'Select' button.
- 2. IP Address Block:** A dropdown menu showing '/30 (1 Usable IP)'.
- 3. HandOff Type:** A dropdown menu showing 'FastE/Copper'.
- 4. Diversity Type:** A dropdown menu showing 'Select Diversity Type'.
- 5. Select Primary Vendor for DIA:** A section with a 'Price: Low to High' toggle and a 'Preferred only' checkbox. It lists four vendors:
 - Zayo North America:** \$618.87/mo, NRIC: \$0.00. Options: On-Net, Preferred, GTT.
 - Level 3 - Americas:** \$618.85/mo, NRIC: \$0.00. Options: On-Net, Preferred, GTT.
 - Cox:** \$648.15/mo, NRIC: \$0.00. Options: On-Net, Preferred, GTT. This vendor is highlighted with a green border and a green checkmark.
 - Mid-Atlantic Broadband:** \$740.74/mo, NRIC: \$1,000.00. Options: On-Net, Preferred, GTT.
- A 'Load more' button is at the bottom of the vendor list.

Pricing Summary (Right Panel):

- 7. Currency:** A dropdown menu showing 'USD'.
- 6. Total Pricing Summary:**
 - Total MTRC: \$648.15
 - Total NRIC: \$0.00
- Connectivity Summary:**
 - MTRC: \$648.15
 - NRIC: \$0.00

1. **Adjusted Wired Speed(up/down):** By selecting DIA a sub-menu will appear, the first selection is Speed.
2. **IP Address Block:** Choose from 6 options:
 - a. 30 (1 Usable IP)
 - b. 29 (6 Usable IPs)
 - c. 28 (14 Usable IPs)
 - d. 27 (30 Usable IPs)
 - e. 26 (62 Usable IPs)
 - f. 25 (126 Usable IPs)
3. **Handoff Type:** Will automatically be selected according to the vendor selected.
4. **Diversity Types Include:**

- a. None
- b. Vendor Diversity
- c. POP Diversity
- d. Vendor + POP

Please Note: For true last mile vendor diversity, please reach out to your GTT Account team for confirmation.

- 5. **Select Primary Vendor for DIA:** Depending on the Service you can choose between On-Net and/or Off-Net connectivity.

Two Options are available:

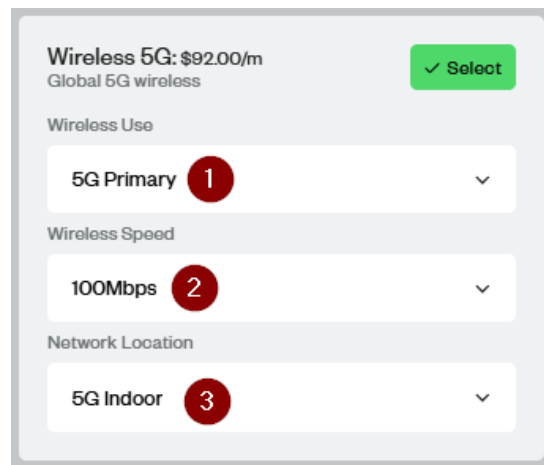

Preferred: Suppliers marked in black provide the level of Service Delivery and support consistent with all requirements and best practices established by GTT.

Non-Preferred: This description is for the suppliers with the level of service delivery and NOC who do not adhere to best practices established by GTT. If this option is selected a result in a reduction or elimination of GTT SLAs, and a possible diminished client experience overall may occur. Additional SOF terms may be required to ensure clients consent to these risks.

As you select connectivity, service and equipment options, you will be able to use the right-hand side receipt panel to see how the pricing adjusts based on your selections.

- 6. **Terms and Pricing:** You will see pricing for each component added to the quote in accordance with the term selected.
- 7. **Currency:** Will be automatically set based on the account but it can be changed.

Wireless 5G

The image shows a configuration interface for 'Wireless 5G'. At the top, it says 'Wireless 5G: \$92.00/m' and 'Global 5G wireless'. There is a green 'Select' button with a checkmark. Below this, there are three sections: 'Wireless Use' with a dropdown menu showing '5G Primary' and a red circle with the number '1'; 'Wireless Speed' with a dropdown menu showing '100Mbps' and a red circle with the number '2'; and 'Network Location' with a dropdown menu showing '5G Indoor' and a red circle with the number '3'.

1. **Wireless Use:** Choose from three (two) options:
 - 4G Backup
 - 5G Backup
2. **Wireless Speed:** Choose from two options:
 - 100mbps
 - 200mbps
3. **Network Location:** Choose from two options:
 - Indoor
 - Outdoor

Broadband Internet

The screenshot shows a configuration page for Broadband Internet. At the top, it says "Broadband: \$183.98/m" and "Local Broadband connectivity" with a green "Select" button. Below this are five numbered callouts pointing to specific fields:

- 1** points to the "Upload Speed (min)" dropdown menu, which is currently set to "300Mbps".
- 2** points to the "Download Speed (min)" dropdown menu, which is currently set to "300Mbps".
- 3** points to the "IP Type" dropdown menu, which is currently set to "Select IP Type".
- 4** points to the "Number of Usable IPs" dropdown menu, which is currently set to "Select Number of Usable IPs".
- 5** points to the "Select Vendor for Broadband" section.

The "Select Vendor for Broadband" section includes a "Price: Low to High" sort button and a "Preferred only" toggle. Below this is a "Warning" box stating: "Off-net vendors may incur construction costs." There are three vendor options listed:

- Comcast**: \$170.35/mo, RJ45 Ethernet/Copper, NRR: \$49.00. It has a green "Preferred" button and an "Off-Net" button.
- Verizon IDE (Internet Dedicated Essential) - Broadband**: \$738.89/mo, GigE/Copper, NRR: \$99.00. It has a grey "Preferred" button and an "Off-Net" button.
- Granite Telecommunications**: \$4,166.67/mo, RJ45 Ethernet/Copper, NRR: \$199.00. It has a grey "Preferred" button and an "On-Net" button.

1. **Upload Speed (Min):** Select different speeds of up to 100 Mbps in the drop-down menu.
2. **Download Speed (Min):** Select different speeds up to 200 Mbps in the drop-down menu
3. **IP Type:** Select Public-Private / Static-Dynamic / IPv4-IPv6 in the drop-down menu
4. **Number of IPs:** Select the number of IPs from the drop-down list.
5. **Available Vendors for Broadband:** There are 3 types of classifications for the Suppliers:

Two Options are available:

Preferred: Suppliers marked in black provide the level of Service Delivery and support consistent with all requirements and best practices established by GTT.

Non-Preferred: This description is for the suppliers with the level of service delivery and NOC who do not adhere to best practices established by GTT. If this option is selected a result in a reduction or elimination of GTT SLAs, and a possible diminished client experience overall may occur. Additional SOF terms may be required to ensure clients consent to these risks.

Customer Provided Access (CPA)

GTT can leverage customer provided access for SD-WAN services.

CPA: \$24.50/m
GTT leverages customer-provided access (CPA) for SD-WAN per Service Schedule.

☒ CPA Standard
Includes integration and monitoring.

☐ CPA Enhanced
Includes integration, monitoring, ticket creation, and progression with CPA Provider—requires an LOA.
