

LOXAM Elevates Customer Experience With GTT

A leader in equipment rental strengthens customer partnerships with enhanced networking and security from GTT.

Arlington, Va., September 18, 2025 — [GTT Communications Inc.](#), a leading networking and security as a service provider for multinational organizations, has announced that [LOXAM](#), Europe's leading equipment rental company, has renewed and extended its agreement with GTT to connect and secure 115 sites in Belgium, Denmark, Germany, Ireland, Luxemburg, the Netherlands and Switzerland.

"Our new network and security solution with GTT will significantly boost the available bandwidth at our branches, ensuring our staff has secured high-speed access to our core rental systems," said Didier Dechoux, CIO, LOXAM. "Our network is crucial to our business because constant, real-time visibility into rental equipment availability and usage enables us to deliver a smooth and responsive customer experience. GTT has continued to act as a trusted advisor to LOXAM for more than eight years. The GTT team understands our strategy and provides us with the day-to-day insights we need to help our business operate smoothly. With this agreement, we're entering the second generation of our enterprise network with GTT, a true testament to the strength and longevity of our partnership."

[GTT Envision](#) forms the foundation of LOXAM's enhanced network strategy, supporting performance, visibility and security across all locations. [GTT Secure Connect](#), a Secure Access Service Edge (SASE) framework enabled by GTT Envision includes high-availability [Managed SD-WAN](#) and integrated Firewall as a Service (FWaaS), ensuring secure and resilient connectivity. Additionally, through its partnership with Ericsson Enterprise Wireless Solutions, GTT complements Dedicated Internet Access (DIA) with robust 4G and 5G wireless connectivity, enabling dual access for seamless business continuity and operational agility.

The components of GTT Envision enabling the LOXAM solution include GTT EnvisionCORE which optimizes global traffic across GTT's backbone, maintaining consistent application performance. In addition, the GTT EnvisionDX digital gateway provides LOXAM with real-time visibility and control over network performance, security policies and service analytics. These platform capabilities are further supported by GTT Professional Services, which deliver custom reporting, governance and security reviews to ensure swift and proactive incident prevention and resolution.

"We are proud to continue our long-standing partnership with LOXAM and support its business with the technology platform necessary to make equipment rental simpler, faster and more secure for their customers," said Tom Homer, President, Europe Division, GTT. "GTT Envision enables LOXAM to select best-of-breed technologies to deliver a resilient and scalable architecture that provides observability, efficiency and security for its distributed operations."

About GTT

GTT is a leading networking and security as a service provider for multinational organizations, simply and securely connecting people and machines to data and applications — anywhere in the world. We serve thousands of organizations, bringing together the right people, partners and technology to reduce the burden on IT teams and solve the most pressing networking and security challenges. Built on our top-ranked global Tier 1 network, GTT Envision is a single

global technology platform to connect, orchestrate, virtualize and automate enterprise networks, enabling customers with consumable solutions to achieve business missions and meet ongoing demand when, where and how needed.
