

SIP TRUNKING FOR TEAMS OPERATOR CONNECT

GTT SIP Trunking integrated with Microsoft Teams Operator Connect

The reduction in the acquisition of telephony licencing illustrates how deeply Microsoft Teams has disrupted the unified communications marketplace, as customers move to cloud-based collaboration tools.

Microsoft Teams provides voice over IP (VoIP) and Internet Protocol (IP) private branch exchange (IP-PBX) capabilities as well as the Public Switched Telephone Network (PSTN) connectivity for inbound and outbound calls. In 2023 Gartner has named Microsoft Teams as a leader in their Gartner Magic Quadrant™ for Unified Communications as a Service (UCaaS) for the fifth year in a row.¹

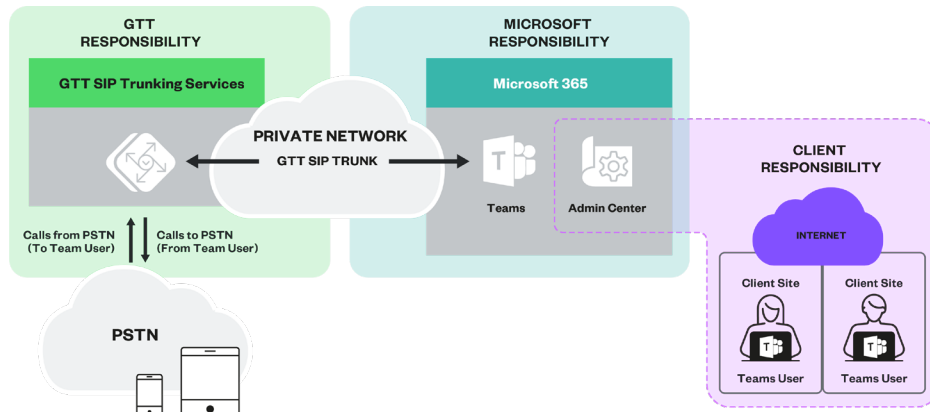

As a Microsoft partner, GTT Microsoft Operator Connect provides PSTN connectivity via GTT SIP Trunking to Microsoft Teams for a resilient, easy-to-use calling solution to help keep employees productive.

¹ Gartner Magic Quadrant, November 28, 2023

SERVICES FEATURES

GTT Operator Connect offers direct peering and integration with Microsoft Teams worldwide.

Simple & Quick to Deploy

An easy, simplified procurement experience for customers. Organizations can assign telephone numbers to users and enable GTT as their global voice carrier via Microsoft Teams admin center.

Superior Support

GTT manages your connection 24/7/365 through our global Network Operations Center.

Highly reliable

GTT SIP Trunking is delivered across a diverse, low latency, Tier 1 IP Backbone with geographically redundant session border controllers for easy scalability. GTT's fully redundant, global and robust SIP-based network is purpose-built to meet the demands of bandwidth-intensive applications like voice services.

Usage Reports

GTT's user-friendly client portal, EnvisionDX, provides customers easy access to rated Call Detail Records (CDRs). In addition, Microsoft generates CDRs which are presented via the Microsoft Teams admin portal. Customers have the flexibility to use the administrative tool the best serves their business.

ABOUT GTT

GTT is a leading networking and security as a service provider for multinational organizations, simply and securely connecting people and machines to data and applications – anywhere in the world. We serve thousands of organizations, bringing together the right people, partners and technology to reduce the burden on IT teams and solve the most pressing networking and security challenges. Built on our top-ranked global Tier 1 network, GTT Envision is a single global technology platform to connect, orchestrate, virtualize and automate enterprise networks, enabling customers with consumable solutions to achieve business missions and meet ongoing demand when, where and how needed. Our portfolio includes SASE, SD-WAN, security, internet, voice and other connectivity options, complemented by a suite of professional services and exceptional sales and support teams in local markets around the globe. We partner with our customers to deliver Greater Technology Together.

KEY BENEFITS

Global coverage

Voice network presence across the globe, DID access in over 55 countries, more than 120 countries and territories with toll-free services. National and international outbound calling worldwide. Emergency services available in many countries.

Resilient architecture

Our global voice network includes redundant PoPs per region, interconnected with leading regional and global carriers.

Seamless deployment

For both new and existing customers, GTT and Microsoft offer easy onboarding through the Microsoft Teams Admin Center for a successful deployment of your voice solution.

Reduce management costs

GTT SIP Trunking integrated with Microsoft Teams provides simple and quick access to voice calling over a collaboration platform already familiar to your employees, for a seamless service experience.
