

SIMPLICITY AND ELEGANCE IN A SINGLE DEVICE WITH ENVISIONEDGE

One box, 16 configurations, Endless possibilities

The 5th Generation of EnvisionEDGE offers customers a redefined way to connect, secure and simplify their infrastructure, replacing multiple bespoke components to a single multi-use device. Reduce network complexity and hardware cost. Create an optimal deployment environment from a single EnvisionEDGE device. So, stop thinking about hardware and start thinking about software.

SUB-OPTIMAL STATE

- 5 solutions – 5 different devices
- High manufacturer's suggested retail price (MSRP)
- Shipping from multiple origins
- High level of complexity for optimal interoperability / integration

ROUTER

SD-WAN

FIREWALL

WAN
OPTIMIZATION

OBSERVABILITY

OPTIMAL STATE

- 5 network and security functions in a single device
- Best in class technologies – tailored to your needs
- Faster deployment with pre-installed virtualized features
- Single vendor/billing
- Built to GTT specifications

SUPPORT 10 FUNCTIONS IN 16 DIFFERENT CONFIGURATIONS

1 INTERNET
ROUTING

2 MPLS
ROUTING

3 ARUBA
EDGECONNECT
SD-WAN

4 BROADCOM
VELOCLOUD
SD-WAN

5 FORTINET
SD-WAN

6 PALO ALTO
PRISMA
SD-WAN

7 FORTINET
FIREWALL

8 PALO ALTO
