

GTT SIP TRUNKING

Global Reach with centralized configuration

As voice requirements shift toward global consistency, cloud integration and resilience, enterprises are consolidating providers and adopting centralized SIP trunking to simplify operations while maintaining performance and security.

GTT SIP Trunking addresses these needs by providing high call quality and reliable voice services across the globe. As enterprises deploy their digital transformation initiatives, voice, typically their most important application needs to be cared for as IT teams support a 'work from anywhere' culture.

GTT SIP TRUNKING

GTT CLOUD PHONE SYSTEM DIRECT

With GTT SIP Trunking, you can leverage our global, fully redundant and robust SIP based network to provide PSTN access to users via pre-established connections to leading cloud phone system providers.

Microsoft Teams Operator Connect

Simplified procurement and enhanced Teams voice experience for customers. Customers can assign telephone numbers to users and enable GTT as their global voice carrier via Microsoft Admin center.

Microsoft Teams Direct Routing

GTT can deliver dedicated SIP trunks to Microsoft Teams services residing in Office 365. As a Tier 1 ISP, GTT peers directly with Microsoft, ensuring the lowest latency connectivity between our voice network and Microsoft Office 365.

Cisco Webex Calling

The GTT SIP Trunking service can provide Cloud Connected PSTN (CCP) capabilities for Cisco Webex Calling clients. Customers can make inbound and outbound telephone calls using telephone numbers assigned by or ported to GTT.

Zoom Phone BYOC

With Zoom's BYOC feature, customers can use GTT SIP Trunking together with the Zoom Phone cloud. Customers can enjoy all of the benefits and features of Zoom Phone while benefiting from GTT's global voice solution for outbound calling, as well as new and ported DIDs.

Google SIP Link

Organizations can now unify their enterprise voice strategy by integrating GTT's SIP Trunking services with Google SIP Link. This integration enables the use of Google Voice desktop features—such as voicemail transcription, ring groups, and intelligent call forwarding.

AnywhereNow

Easily incorporate GTT Voice with AnywhereNow cloud-based contact center, natively integrated with Microsoft Teams. You can activate a GTT SIP Trunk group to Microsoft Teams Direct routing and AnywhereNow

ABOUT GTT

GTT is a leading networking and security as a service provider for multinational organizations, simply and securely connecting people and agents to data and applications anywhere in the world. We serve thousands of organizations, bringing together the right people, partners and technology to reduce the burden on IT teams and solve the most pressing networking and security challenges.

Built on our highly ranked global Tier 1 network, GTT Envision is a single global technology platform to connect, orchestrate, virtualize and automate enterprise networks, enabling customers with consumable solutions to achieve business missions and meet ongoing demand when, where and how needed. Our portfolio includes SASE, SD-WAN, security, Internet, voice and other connectivity options, complemented by a suite of professional services and exceptional sales and support teams in local markets around the globe. We partner with our customers to deliver Greater Technology Together. For more information, visit www.gtt.net.

KEY BENEFITS

Global reach

Activate new numbers or migrate existing geographic numbers in 40+ countries. Consolidate your legacy supplier relationships.

Cloud phone system integration

Direct routing capabilities to collaboration partners like Microsoft Teams, AnywhereNow, Google SIP, Cisco Webex Calling and Zoom Phone. Further details can be found on Cloud Phone System data sheet.

Fast SIP trunk implementation

SIP trunk provisioning is quick, avoiding a long delivery schedule. Easily incorporate any mix of legacy telephony equipment.

Quality worldwide outbound calling

Ensure optimum quality and low latency for calls delivered over GTT's global IP backbone and terminated locally.

Free office-to-office calls

Calls between SIP trunk-connected offices are free regardless of geographic location.

Routing control & 3rd party integration

Customers looking for added routing control and flexibility to integrate their own third party voice carrier can do so by enabling a GTT SIP Trunk VVN.
